> Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine " makes the weak strong." It does not act like a stimulant, Imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes that tired feeling, creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

Fagged Out "Last spring I was completely fagged out. My strength left me and I felt sick and mis-erable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md. N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having
